

Kanter, Modesto, Calif., top seeded, beat Dorothy Levine, Chicago, 6-4, 6-1. Mrs. Davidson, Des Moines, Ia., fourth seeded, beat Pat Stewart, Indianapolis, 7-5, 6-2.

But they would come out second best in the track events. This deduction comes from a comparison of the Olympic records and the 1948 winning times.

# CYCLE RACE ENTRY LIST SOARS OVER 50 MARK

If a talent-packed field means good races, Sunday's motorcycle card at De Anza Park Speedway will be one of the most spectacular ever held on the old fairgrounds oval.

The entry list has soared over 50, Promoter Mel Hansen has revealed, and it includes these top bikemen:

Tex Luce, Jimmy Phillips, Eddie Kretz Jr., Chuck Basney, Bud Meyer, Bert Brundage, Don Howley, Dick Denaple and Bob Shirey.

These and the other daredevils will pull on their leather breeches and pull on their "outrigger" shoes and compete in a 14-event show that includes a 15-lap main event, 12-lap semi-main, 10-lap special event, five-lap heat races, a trophy dash—91 laps of top cycle racing in all.

Time trials start at 12:30 p.m. with the opening race, the trophy dash, starting at 2:30 p.m., with Queen Dee Dee Madriagia presenting the trophy.

The prospectors are dock and L. R. West happily rushed in while the fishermen fear they are being rewarded a day haul from the beds of Morro Bay.

Discovered by the department of Fish in 1941, and seriously studied by marine biologists in 1942, the offshore shrimp opened for commercial fishing in April 1943.

Three-year permits were issued under careful gear and bag regulations.

Although a total catch limit has been issued by the department, Murdock and the "Grace H." occasionally by another boat, are the only boats on the coast who have insisted on beam trawling, giving the newly-discovered shrimp the best effort.

The five known shrimp boats scattered in the Pacific 100-fathom depths, from San Diego to Morro Bay.

The problem of small shrimp has permitted from all California sea food products. They have been reluctant to sell their catch to the processors.
