Forty-five car loads of fat, Territory

east Tuesday, last. The Sunflower is  
doing a heavy business.

A. S. Hill is digging a cellar, pre-  
paratory to building an addition to  
his residence, in the south part of  
town. A good cellar is something  
that everybody should have.

Kullmann Bros. waltz to the front  
this week with a large display "ad."  
Read it through and act upon the ad-  
vice there found. They are first-class  
boys and will do exactly as they agree  
to do.

accomplished school ma'am, a cousin

the latter. Miss Calvert contemplates  
teaching school in Barber county this  
winter.

Mr. O. Mooney was a caller at our  
print shop, last Friday afternoon. He  
gave us a pleasant chat of a few min-  
utes, but one of the principal features  
of his visit was the \$1.25 he presented  
us with. Come again, Mr. Mooney.

Bill Heath, one of Towanda's old  
time boys, is back again from the  
west, looking as hearty and saucy as  
ever. As women are a scarce article  
out there it is possible and also prob-  
able that Bill is on a sharp lookout  
for a partner, to share with him his  
western home. Good luck to ye, Bill.

Sol. Mooney evidently has a good  
supply of patience on hand, judging  
from the patient manner in which he

the value of their property from 10  
to twenty per cent.
