5TH VICTORY LOAN

Bring Him Back

AMERICA sent the men from this country over to Europe to bring back something with them.

And that something is Victory—Victory for you for me—for everybody, because it means freedom from the shackles of oppression for the whole world.

'Twas an expensive job. Look at the appalling cost of human life. That can never be measured in dollars and cents.

But dollars and cents are needed for many things. Uncle Sam has a big bill to settle, and it's up to you to do your share.

Oh, yes, you have subscribed to all of the Liberty Bonds that have been

issued before, but that's nothing. You were eager to do your share in helping to finish a raging hell of war that had upset this old world of ours for four years.

Well, your money helped to send supplies and men over there. Now let more of it help to bring 'em back, and pay the bills we've contracted.

Finish the job.

There's a Victory Booth in our store, and we'll be mighty glad to take your subscription for a Victory.

But if we don't take it, see that somebody does.

Be a sticker! Dig—Cash—Cough up!

Finish the Job

VICTORY LIBERTY LOAN

Honor Captain White, Who Flew From Chicago

New York, April 20.—Captain E. F. White, army aviator, who yesterday made the first non-stop flight from Chicago to New York, was entertained today at a reception held by the Aero Club of America which has awarded

an aeronautical convention in Atlantic City next month, it was announced the Aero Club of Minneapolis, Captain White's birthplace, and the Aero Club of Illinois, would send representatives. Major-General Charles T. Mencher, director of military aeronautics, has been invited to make the presentation.

SERVICE CLUBS IN LOAN DRIVE

Enthusiasm Marks Inauguration of New Feature of Great Financial Campaign.

Industrial plants in New York city and in other parts of the Second federal reserve district are taking up the service clubs, authorized by the government loan organization, with considerable interest and enthusiasm.

These clubs, which constitute a new feature in loan campaigns, are being formed only in the factories and workshops in which the employees are conducting their own victory liberty loan drives under the supervision of committees of their own choice.

Membership in these clubs is open to workers who subscribe to \$100 or more of the victory notes. There are two kinds of clubs, one called the \$100 service club and the other the \$200 service club, the first open to those who buy \$100 in notes, and the second to those who subscribe for at least \$200 worth of the new securities. The committee of workers in charge of the campaign within the walls of the factory or shop passes upon applicants for membership and awards buttons to those who qualify. These buttons bear the words: "Industrial Division, Victory Liberty Loan, \$100 (or \$200) Service Club," and also the figure of an eagle with wings outspread.

The demand for these buttons is coming from all parts of New York state, northern New Jersey and Fairfield county, Connecticut, and is giving evidence of the popularity of the new feature. Many plants in New York city are forming service clubs, with the co-operation of the advisory trades committee. Following are some of the larger towns in which the movement to form service clubs is gaining headway well in advance of the campaign:

Niagara Falls, Rochester, West Orange, Poughkeepsie, Ballston Spa, Potsdam, Watervliet and Glens Falls, in New York state; Ozone Park, College Point and Port Jefferson, L. I., N. Y.; and Dover, Franklin Furnace, Irvington, Lambertville, Phillipsburg, Ridgefield Park and Pompton Lakes, in New Jersey, as well as South Norwalk in Connecticut.

The prompt organization of service clubs and the installation of the industrial plant system of canvassing show that workmen in every part of the Second federal reserve district are alive to the situation and are going to do their full share in the victory liberty loan.

The experience of previous liberty loan campaigns has been that workers placed in charge of the drive within their own factory or shop invariably produced more subscribers and larger subscriptions than if the canvassing were directed from the outside. This form of self-determination has been shown to be most effective.

Gilbert B. Bogart, assistant director of sales of the government loan organization, is in charge of the victory liberty loan campaign in industrial plants as well as of other selling features.

GERMAN CONCERN SUPPLIED EXPLOSIVE

Handled Infernal Machine Used by Mexican Rebels in Blowing Up Trains.

(By the Associated Press.) Mexico City, April 20.—Manuel Cortes, aide to Pedro Gavay, chief lieutenant of Felix Diaz, following his capture in the fight which resulted in the death of General Aureliano Blanquet, war minister in the cabinet of President Huerta, last week at Chavixtla, state of Vera Cruz, made a statement today in the city of Vera Cruz in which he revealed the means employed by the followers of Diaz to secure explosives for the blowing up of trains between the capital and the gulf coast.

According to a despatch sent by the special correspondent sent to Vera Cruz by El Universal, Cortes declared that the explosives and infernal machines had been sent in a roundabout way to the rebel headquarters by a German firm in Mexico City which handles hardware and
